

DOCTORAL PROGRAM IN CHEMISTRY

▼ THE PROGRAM

The CUNY Doctoral Program in Chemistry is a unique multi-campus consortium that offers graduate students several advantages: a wide diversity of faculty research interests, an abundance of research equipment and instrumentation, interdisciplinary and collaborative research, and opportunities for teaching assistantships. In terms of expertise and instrumentation, this consorial structure allows doctoral students access to the state-of-the-art research infrastructure of a large research university, but have the mentoring, guidance and training afforded by smaller departments. Students may choose to specialize in:

▼ AREAS OF FACULTY RESEARCH CURRENTLY INCLUDE:

Analytical

Inorganic

Organic

Molecular Biophysics

Nanotechnology & Materials

Physical

Polymers

THE BENEFITS OF CHOOSING CUNY

5 YEARS WITH:

Annual Stipends

Full Tuition Waiver

Health Insurance

NSF-AGEP
CUNY LEAD PARTNER
For Students From
Underrepresented Group

UNIQUE FEATURES OF CUNY CHEMISTRY

Research Rotations—To enable exploration of the breadth of CUNY's research opportunities in Chemistry, all first year doctoral students may do research rotations with faculty at the participating CUNY campuses: **Brooklyn College • City College • Hunter College • Queens College • The College of Staten Island • York College.**

CUNY chemistry faculty have received many prestigious awards in re-cognition of their contributions to education, the sciences & engineering. Included are: **NSF Presidential Young Investigator Award • Alfred P Sloan Fellowship for Basic Research • Guggenheim Fellow • NIH Merit Award • Fulbright Scholar Award • Fellow of the American Physical Society • Fellow of the American Association for Advancement of Science • NSF Career Award • Avanti Award • Membership in the National Academy of Engineering.**
